ABOUT US

ARAccess is a market leader in Garage Door and Gate Automation. ARA aim to create unprecedented levels of convenience while creating a new pathway embracing and following the changes in technology.

Our primary focus in being the market leader of automation is to prioritize service and quality. ARA is the first of their kind to offer an exclusive 7 year warranty on its automatic garage door openers which is purely a testament to our commitment to delivering the highest standards in garage and gate automation systems.

OUR AIM is to take all your worries out of accessing your premises, safely, securely and with ease. We are certainly SETTING THE STANDARD, being the first company In Australia to provide our customers with a unprecedented Seven (7x) year warranty on all garage door units. We are continuously improving and thoroughly testing all products to ensure they stand the test of time and reliability prior to delivery.

ARA TEAM - recognize, support and harness the diverse talents of our people. We care, respect and invest in our people and are committed to their well-being.

SAFETY – Is both your and our priority and is ensured in everything we do.

PERFORMANCE - We hold ourselves accountable to deliver exceptional performance. We are dedicated, professional and passionate. We reward and celebrate success. Our commitment to always meet or exceed our customer's expectations sets us apart.

INTEGRITY - We build trust by doing what we say we will do. We place great value on personal and technical credibility and service.

INNOVATION - We foster new Ideas and creative solutions. ARA pride themselves on being innovative and creating a new pathway for technology and convenience while keeping reliability and quality prioritized.

ARA RDO-V5 ELITE DRIVE

Designed In Australia. This Roller Door Opener will suit all domestic roller garage doors.

Heavy Duty – 1000NM motor, durable and reliable without breaking the bank!

ARA MARK2-V2 ELITE DRIVE

Equipped with a heavyduty DC opener

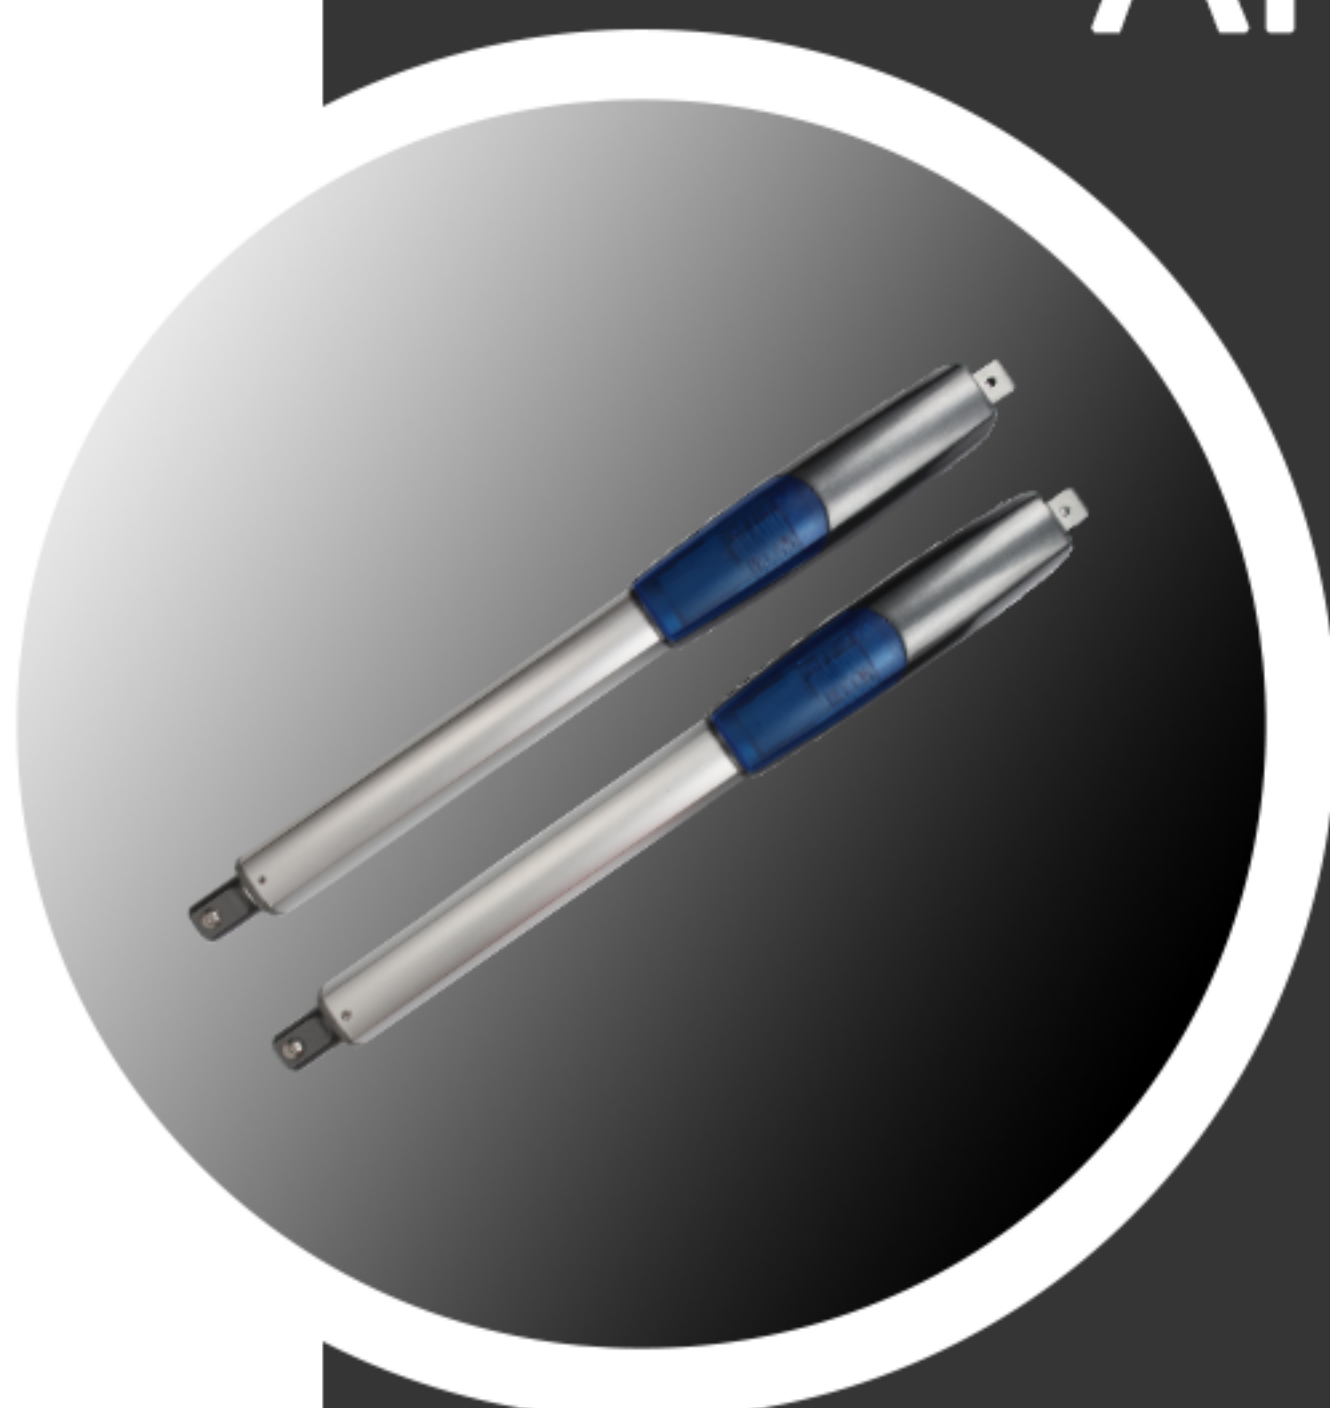

this 1000 NM Panel/ Tilt door opener has the power to reliably open a range of garage doors from small single doors to even the heaviest double panel lift doors.

ARA PY500AC

Domestic Sliding Gate Motor is the ideal unit, quiet in operation, quick in movement (approx 13.3m per minute) and heavy duty moving gates that weigh up to approx. 500kg! The PY500AC operates via forcing a drive rack by a drive gear.

ARA SW850 SWING GATE OPENERGET

Get your gates to open at your command with the ARA SW850 Actuator Arms. The heavy duty arms operate gates upto 450kg per arm.

Designed in Aus, the automation unit are extremely quiet in operation and required standard DC household power for your convenience in installation.

ARA BW-3 PARKING BARRIER

This is used in all kinds of parking spaces. Most commonly used in Apartment complexes along with medical and dental clinics.

Parking barriers are a great deterrent. When open sits approx. 330mm off floor. When closed sits approx. 130mm off floor.

ARA FINGERPRINT CONTROLLER

This high quality wireless optical fingerprint module is battery powered, and consists of four channels! This unit is exclusive to ARA as it operates on our unique 433.22 MHz frequency. Great investment with storage facilities of up to 20 different finger identities. It is a sealed and weather proof unit.

ARA BLUETOOTH RECEIVER

Exclusive to ARA, the Bluetooth receiver now allows you along with up-to 20 other smartphone devices to access your premises once a paired connection has been established & authorized. (that be either your garage or gates) Available on both Android and Apple iPhones.

ARA WIRELESS KEYPAD ENTRY

Again, unique to ARA operating on our 433.22mhz frequency, this Wireless Keypad Entry unit, makes accessing your premises secure, convenient & reliable! Being a two channel transmitter you can choose your level of convenience by programming any desired combination whether that consists of gates or garages. It is a sealed and weather proof unit.

ARA FREQUENCY RECEIVER.

The ARA Receiver can be wired to most available Garage door motors as well as most driveway Gate motors that operate under 12V or 24V. it is simple to install and has a large receiving range of up to 35m from the remote control.

ARA WIRELESS TRANSMITTERS

The ARA Transmitters work on the unique frequency channel of 433.22mhz with a rolling code providing over 1.2billion different combinations for your peace of mind. The wireless wall mount (two channel transmitter) and the keychain handheld transmitter (four channel) allow multiple units to be paired to the one control.

ARA INFRA-RED PHOTO BEAM CELLS

Designed to increase safety on vehicles, children and even pets, the photo beam sensors are placed (one on each side) between the opening. During operation if the beam is interrupted/ broken the automation unit registers and reverses its operation, avoiding any collision resulting in damage.
