# CUSTOM GARAGE DOORS

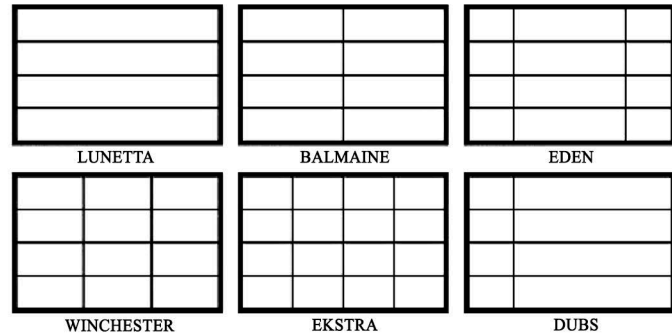

Our custom handmade garage doors are available in a broad and extensive range of designs using various products, individually or in conjunction with other claddings to give your home, street appeal.

Our handmade custom garage doors are encased in a strong 2mm thick, double sided aluminum frame unique in the industry. The strength of the custom frame means there is no need for unsightly steel reinforcing behind the panels.

## FEATURES

Optional low head room tracking allows installation with only 150- 250 mm head room

- > The strength of our 2 mm double sided aluminum frame allows us to manufacture a wider door (up to 7400mm Wide) than majority of our known competitors.
- > Available in 6 design styles – Lunetta, Balmaine, Eden, Winchester, Esktra & Dubs style frame formats.
- > Custom made to cater for your own unique design need – including flush finish Sectional doors, an industry wide point of difference.
- > Variety of cladding types such as Polycarbonate, Aluminum Composite Panel (7x colors to choose from), Aluminum slats – powdercoated to your desired color or in different timber-look finishes, Mini-orb and Perforated Mesh Aluminum Sheets – which can be inserted into our frame of or face fixed – based on personal preference and the way you would like to have your door.
- > Torsion spring assisted mechanism provides safe trouble-free operation.
- > Heavy duty steel hinges for durability.
- > Tilt door frames can also be manufactured and are made out of the same dual- 2mm thick Aluminium frame, powdercoated to the color you like – with optional personal access doors, embedded into the frame.
- > Personal access doors can be manufactured to match your garage door.
